

# POZI POYRAZ SAROGLU

## DIRECTOR

WHO IS POZI ? - VIDEO SHOWREEL

### ABOUT ME

As a seasoned videographer, photographer, and producer based in London, I specialize in creating bespoke content for companies. With a unique vision and unwavering dedication, I bring creativity and professionalism to every project, crafting captivating visuals that elevate brands and narratives to new heights.

### DIRECTOR PRODUCER CAREER

I have directed music videos and commercial shoots for leading Turkish enterprises such as Turkcell, while also forging collaborations with mainstream media channels. Renowned musicians have entrusted their projects to me, with a substantial number of my video clips showcased on "netd müzik," Turkey's preeminent YouTube channel boasting over 24 million subscribers. I have experience beyond music and commercials, having directed television programs and multicamera events successfully. My skills and creativity consistently deliver outstanding outcomes across various areas of the entertainment industry.

My portfolio spans gourmet food programs shot in London, extensive travel for a CNN-aired TV show, and successful multicamera projects, including one at the esteemed Natural History Museum. Specializing in visually captivating gastronomic storytelling, I excel in capturing diverse cuisines and locales, engaging global audiences with compelling narratives.

### SELF SHOOTER FILMMAKER CAREER

As a self-shooter, I captured vibrant moments in music videos, stylish gatherings at fashion events, and celebrations of weddings. Additionally, I've directed documentary projects, skillfully navigating diverse conditions with ease and expertise. With each project, I aim to encapsulate the beauty and essence of every occasion, creating captivating visuals that resonate deeply with audiences.

I have also contributed to impactful documentary projects, including serving as the cinematographer for TRT's 'Healer,' a compelling exploration of Ayahuasca culture set in Brazil's Amazon region. In this visually captivating journey, I captured the essence of the Amazonian landscape and the profound healing traditions of the indigenous communities.

I also filmed a documentary about sustainable living, following a journey from Amsterdam to different parts of Europe. Through evocative imagery and storytelling, I portrayed the ethos of sustainable living and its significance in contemporary society.

These projects underscore my versatility and proficiency in visually narrating diverse themes and locales, showcasing my ability to capture the essence of cultural experiences and societal movements.

### MUSICIAN & PRODUCER CAREER

I helm a music company where I've produced over 100 songs, each a testament to my passion for musical innovation. My foundation in jazz drumming, honed through university studies, has allowed me to collaborate with esteemed artists like Genco Ari, Elvan Kizilay, and Burcu Ari, among others. Additionally, I've graced the stage with renowned musicians such as Ayşe Sicimoglu, Haluk Levent, and Selçuk Balci. Spending summers in Bodrum, I've had the privilege of playing alongside some of Turkey's finest musicians, contributing to the vibrant music scene of the region.

### CAREER SUMMARY

2016 -
